

PRASHANT MISHRA

Full-Stack Developer · AI Builder · CS Student

+91 7307279576 | prashant32064@gmail.com | [LinkedIn](#) | [GitHub](#) | [LeetCode](#)

CAREER OBJECTIVE

Final-year CS student and Full-Stack Developer with hands-on experience in React, Next.js, TypeScript, and AI integration. Built and shipped 4 web applications end-to-end, including an e-commerce platform with Stripe payments and an AI-powered assessment system. Experienced in connecting LLM APIs (Groq, Claude API) to user-facing products, with a focus on fast load times and cross-browser support.

EDUCATION

United Institute of Technology, Prayagraj

2023 – Present

B.Tech – Computer Science Engineering

Kendriya Vidyalaya C.O.D Cheokki (CBSE) — Intermediate (XII) & High School (X)

2022 / 2020

EXPERIENCE

Mind-Darpan — Multimodal Assessment System

2026 | Final Year Project

Python · BERT · MediaPipe · React

- Built an AI system for my B.Tech final year project that scores spoken responses using NLP text analysis and detects facial emotions via computer vision across 2 input types.
- Used BERT to classify responses across 5+ categories and MediaPipe for facial landmark tracking at 30fps, tuned for low-latency processing.
- Created a React dashboard to display live assessment scores, tested across Chrome, Firefox, and Edge.

Brand Name — Premium E-Commerce Platform

2026

Next.js · TypeScript · Firebase · Stripe · Zustand · ImageKit

- Developed a solo, production-grade e-commerce store using Next.js App Router and React 19, with 50+ products and live inventory updates.
- Integrated Stripe checkout with 3 payment options (UPI, Cards, Netbanking), backed by strict server-side price and payment verification.
- Built a custom admin dashboard to manage inventory (including nutrition facts and flavor/size variants), upload product media via ImageKit, and track orders through 3 stages: Confirmed, Shipped, and Delivered.
- Implemented authenticated order tracking with server-side Firebase ID token verification, backed by ownership-based Firestore security rules.
- Added a persistent shopping cart powered by Zustand and automated HTML order confirmation emails via the Resend API. Deployed on Vercel with CI/CD.

AI Resume Analyzer

2025

React · Groq API · LLM Integration

- Built a browser-based tool that reads a resume and gives feedback on structure, formatting, keyword use, and content quality.
- Tested with 200+ resumes. No user data is stored or sent anywhere — everything runs in the browser for full privacy.

Crazy Coffee Tales — Blogging Platform

2024

React · Appwrite BaaS

- Built a blogging platform where users can create, edit, and delete posts with a rich-text editor and image uploads.
- Added email/password login, protected routes, and role-based access using Appwrite's auth and database features.

LEADERSHIP & ACHIEVEMENTS

Technical Head — Google Developer Groups (GDG) on Campus

Organize coding workshops and tech talks for a campus developer community of 100+ students.

Event Head — ENIGMA 3.0

Managed planning and logistics for the Roadies event at Prayagraj's largest college fest, with 200+ participants across multiple rounds.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, HTML5, CSS3, Python, Java, C

Frontend: React.js, Next.js, Tailwind CSS, Shadcn UI, Zustand, Redux Toolkit, Responsive Design

Backend: Node.js, Express.js, REST APIs, MongoDB, PostgreSQL, Firebase, Supabase, Appwrite

Tools & Cloud: Git, GitHub, CI/CD, Vercel, Postman, AWS, Stripe, ImageKit, Vite

AI & ML: NLP, BERT, MediaPipe, Computer Vision, Prompt Engineering, Groq API, Claude API

CERTIFICATIONS

Google: Introduction to Generative AI • Anthropic: AI Fluency Certificate • TCS: Young Professional Certificate

IBM: PBEL Web Development Certificate • AWS: Cloud Essentials • UGI: Java Summer Training
